## Bed Protection - Pads - Diapers

DryMed® washable Incontinence Solutions - new freedom and better quality of life

### Incontinence level 1 -2 - light to moderate Ladies incontinence Panties

#### Ladies washable incontinence Panties with inner absorbing layers - white

DryMed® Ladies washable incontinence Panties offer you a new feeling of freedom and an improved quality of life. Washable incontinence panties with absorbent included pads can be worn like normal underwear. The absorbent insert is made of several absorbent material shifts. Panties are very soft, comfortable and retain humidity perfectly. The absorbent included pad is coated with a wet-impermeable PU-Membrane and guarantees a sure protection. For a higher comfort, an additional pad can be added to increase the humidity retention. With an extra incontinence pad you have the opportunity to double the absorbing volume. A very discreet and pleasant solution, which also offers a high security.
